

This event will consist of:

- 1) 20 multiple choice questions about human anatomy
- 2) 10 stations (not timed) with pictures from posters

A IS FOR ANATOMY

and also a human torso model to identify parts.

* Talking between partners will be allowed (quietly).

Description: * All needed items will be supplied by event manager.

This event will consist of a written test in which the contestants will view models, slides, and pictures to identify organs from the following human body systems. Both structure and function will be tested in a series of written questions.

1. ~~Skeletal~~ Not covered
2. Muscular
3. Digestive
4. Respiratory
5. Circulatory

6. Urinary
7. Nervous
8. ~~Sensory~~ Not covered
9. Endocrine

Number of Participants: 2 Approximate Time: 30 minutes

The Competition:

Every team will be given an answer sheet. Team members may consult with each other by writing (~~no talking~~). Only one answer for each question will be accepted. Team members will move through 20 stations answering approximately 40 questions. Questions will be at the stations or in a test booklet.

Scoring:

At the end of the testing period, the questions and answer sheet will be collected from those teams who have not turned in their responses. Time is not a factor in scoring. Correct spelling will be used as a tiebreaker.

Scientific names must be used to receive full credit.

Resources:

Fourth, Fifth and Sixth Grade Science and Health Books

* Be sure to also check their glossaries for terms.

* Another good resource is human body system posters found at teacher supply stores.

* Please note that the sensory and skeletal systems will not be covered
