SERVICES TO ALL DISTRICTS

WHO WE ARE
The San Joaquin County Special Education Local Plan Area (SJCOE) is a regionalized services office, providing special education services to the San Joaquin County Special Education Local Plan Area school districts. Our goal is to provide support to district personnel leading to improved programs and resources. We are made up of school districts as indicated in the column to the right. Support is provided to these districts upon request and may include consultation and/or direct service. An important function is to act as an interagency liaison and bridge between community resources and student needs.

The SJCOE, one of three SELPAs in San Joaquin County, has been in operation providing support since 1981. There are approximately 7,200 students with identified special education needs within the SELPA region, ranging in age from birth to 22. Staff and services available include but are not limited to the following:

- Program/Educational Specialists may be requested to consult with teachers/administrators on individual students providing technical assistance regarding Individualized Education Program (IEP) or Individual Transition Plan (ITP) development, behavioral interventions, curricular resources, and program recommendations. Networking and staff development are major components and are provided at the district, SELPA, and regional levels.

- Psychologists consult regarding special education issues and Student Study Team (SST) functions in small districts and court schools. They provide assessment and follow-up recommendations for students referred for special education services in county programs, court schools, and small districts. The psychologists may furnish counseling to students with special education needs in the county special education programs and small districts.

- Career vocational staff provide consultation to school site staff in areas of vocational screening, career exploration, life skills curriculum, and community based instruction.
