

2021 Mystery Science Themes

Ecosystems

- Aquatic, marine
- Types of forests
- Human impacts in these ecosystems
- Cycles – such as water, carbon and nitrogen

Human Body

- Nervous system
- Circulatory system
- Endocrine system

Structure and Function of Plants and Animals

- Angiosperms
- Invertebrates – Porifera, Coelenterates, Mollusca
- Questions could relate to special feeding, defense, or reproductive structures and functions

Properties and States of Matter (with Periodic Table)

- Organization of the periodic table in relation to properties
- Questions will be limited to 5 states of matter – solid, liquid, gas, plasma, Bose–Einstein condensates
- Chemical and Physical Properties
- Be able to make simple calculations such as density or volume
